

CAP is now HCAP-Health Communities Access Program. We are a statewide network of Community Resource Coordinators what help people with a variety of federal, state and private programs and services. They focus on healthcare but also help with social and community programs and projects as well

The CRCs work within their communities to help people locate resources and to provide guidance in finding the programs or services that best fit each person.

There are 31 CRCs in North Dakota, with all 52 counties included in their service areas.
